***PrintXcel* Adds HIPAA Forms to Its Stock Product Offering**

Englewood, CO, August 18, 2003 – *PrintXcel*, the leading supplier to the independent distributor market, recently added HIPAA Forms to their stock health care line through its online store at www.printxcel.com. Now, distributors have immediate availability, quick turnaround time and an easy way to order HIPAA forms 24/7.

Earlier this year, HIPAA (Health Information Portability and Accountability Act) established guidelines to ensure patient privacy. One key requirement of this act is the need for confidential sign in forms by patients by any health care practitioner. *PrintXcel* has developed two new stock products to meet these mandates. Distributors can simply imprint the pre-printed forms with their customer's information, rather than produce the entire form from start to finish. The forms are compliant with Privacy Practices Documentation and Communication requirement of HIPAA.

Kevin Lombardo, President and CEO for *PrintXcel* stated, “This is a great opportunity for those distributors who market to the health care industry. We have stocked these HIPAA forms and other CMS forms in multiple locations and can ship them out immediately.”

PrintXcel's HIPAA products are designed to fit the needs of a variety of users and applications– providing an alternative for customers who wish to avoid the investment in large quantities of products or inventories. By using *PrintXcel's* e-commerce store at www.printxcel.com users have an easy way to order *PrintXcel's* HIPAA forms and other stock products.
